

List of LCL tests and services not UKAS accredited.

Biochemistry (RLUH) -

- Sars COV-2-S Antibody Assay

Blood & Marrow Transplantation –

- Trypan blue cell viability

Cellular Pathology

- Digital Pathology

Cellular Pathology ICC Service

- Arginase
- Carbonic Anhydrase
- Glypican-3
- INI-1
- Langerin
- Mammaglobin
- Napsin-A
- PLA2R
- SALL4,
- PD-L1 (SP142) for TNBC,
- PD-L1 (22C3) for GO tumours.
- Gastric HER2-IHC

Cellular Pathology Molecular Pathology Service

- Oncomine DX NGS assay for NSCLC

Clinical Immunology –

- Neutrophil function test
- Cryoglobulin
- Ara h 6 allergen

Haematology RLUH –

- Anti-A1 typing
- IGM anti-A and anti-B titres for ABO incompatible BMT
- Platelet aggregation
- Refixia Assay
- DAMTS13 Antigen
- ADAMTS13 Bethesda style Inhibitor
- Porcine Inhibitor assay

Haematology AUH –

- Malaria screening

Doc. No:	QMS-INF-19	Approved by:	I Santos
Author:	J Harrison-Williams	Page 1 of 2	24/10/24

Haematology BGH –

- Anti-A1 typing

Haematology LWH –

- Anti-A1 typing

H&I –

- Chimerism analysis
- Manual Luminex Antibody testing
- QPCR

HODS -

- Lymphoma core NGS panel
- Genexus Comprehensive MPN (Myeloproliferative Neoplasm) NGS panel
- AML MRD (NPM1, PML-RARA, RUNX1-RUNX1T1, CBFB-MYH11)
- Genexus Oncomine Myeloid NGS TP53 mutation
- BCR ABL1 quantification by using GeneXpert kit on Cepheid.
- PML-RARA Screening

Medical Microbiology –

- MaldiToF identification of isolates from the Pharmacy Aseptic Production Unit
- Enteric Bio platform for stools (Dx panel and CDT panel)

Ophthalmic Pathology-

- MLPA and MSA studies of uveal melanomas

Phlebotomy Service

POCT Service

Virology -

- Genital ulcer PCR
- Rubella IgG
- Respiratory PCR on Cobas 8800
- CTGC and TVMGEN screening on Cobas 8800
- HIV, HBV, and HCV quantitative PCR on Cobas 8000
- HIV 1/2/ qualitative PCR on Cobas 8800
- MPox PCR
- HBsAg quantitative serology on Liaison XL
